**Installation of Anti-Collision Devices**

Anti Collision Device (ACD), developed by Konkan Railway Corporation Limited (KRCL), has been provided as pilot project on North East Frontier Railway (1736 Route Kms). Sanction was also given for implementation in Southern region in the Southern, South Central and South Western Railways on selected 1600 Route KM. Four new works in East Central Railway, East Coast Railway, Eastern Railway and South Eastern Railways have been included during year 20011-12.

Rs. 28 crore have been allocated for ACD works during the current financial year. ACD is planned to be progressively provided on the Railways, after resolving identified operational and technical problems and depending upon the allotment of funds.

This information was given by the Minister of State for Railways Shri Bharatsinh Solanki in written reply to a question in Rajya Sabha today.
