

irtsa.net gets over 3 lakh visitors - In less than 3 years

It is a matter pleasure & pride that this website of IRTSA – (www.irtsa.net) has been visited by over 3 lakh visitors in just about two and a half year of its initiation in January 2008. It may not be a record in itself for the social websites – but it is surely a record for the Organisational websites - especially amongst the Trade Unions – many of whom have yet to enter this field of Information Technology and to take full advantage of this powerful media to reaching out to the Members to share with them an ocean of information on day to day basis.

IRTSA was in fact almost the first ones on the Railways to enter this media. The overwhelming response shown by the ever-growing number of our regular visitors – prompts us to sincerely thank all the visitors for their patronage and enthusiastic response to our continuous effort towards “EMPOWERING ENGINEERS WITH INFORMATION” through latest updating on issues of their immediate concern regarding service matters, Technological Developments on Railways and vast areas of Social Awareness.

We also thank the Site Administrator Sh. Navtej Singh - and other members of the team of irtsa.net - for regularly updating the Website on day-to-day basis and introducing a number of innovative ideas for continuously improving its design and contents.

We plan to soon introduce some new features like “*Faster way of Finding*” your desired Docs - to make irtsa.net more visitors friendly.

We shall always welcome any suggestions and comments for further improving the www.irtsa.net.

So - Please keep visiting us at irtsa.net!

Dated 16th July, 2010

***Harchanda Singh,
GS, IRTSA &
Chief Administrator, irtsa.net
