

## RESULT OF OPINION POLL

(held from 20 to 22 March, 2011):

82.8% Engineers / Technical Supervisors of Indian Railways voted in favour of surrendering of copies of Engineering Degrees / Diplomas & Certificates - keeping in view the total disregard of their Qualifications, Training & Experience as well as that of their Duties and Responsibilities in Safe & Efficient running of Trains - by the Sixth Pay Commission and the Government - by allotting lower Grade Pay to Railway Engineers / Technical Supervisors than the Accounts, Teaching & Nursing Staff - seriously disturbing the existing relativity and non-acceptance of other genuine demands of Engineers on the Railways. - GS IRTSA

 **Should copies of their Degrees/Diplomas/Certificates be surrendered by the Rail Engineers in view of total disregard of their Qualifications, Training & Experience as well as that of their Duties and Responsibilities**

Yes, especially since I strongly believe that the Government has failed to remove the Anomaly and to redress the genuine grievances of Rail Engineers.

193 82.8%

No, I think we should adopt other ways and means to achieve our goals

39 16.7%

Cannot say at this point of time
